

LES Mulan Costumes

Below are basic descriptions of needs and provided items for each costume. Items are separated into three categories: what is provided by the school, what is needed from home, what we will make in rehearsal, and what items are still needed.

You will find the word “plain” frequently in the descriptions below. The ideal “plain” clothing is free of logos, stripes, large pockets, or anything that would stick out to the audience. These can be hard to find – do the best that you can!

Shoes are frequently one of the hardest items. Our student’s don’t wear plain shoes! Plain slippers, flats, etc. are also good choices. Barefoot and socked feet are not a safe choice for our performances space. The slick linoleum floor, and the absence of a space to build our set pieces means that students would be slipping and sliding around a floor that may have nails, screws, etc.
